

engineered wood floors

tuscan

You can't help feeling special with one of our Tuscan engineered floors. Each and every specie has a distinctive charm and character. Mellow and exotic tones add real warmth to your living space, while the wide board specification enhances the visual and aesthetic beauty even more. With a twenty five year wear warranty, you can be sure this is a floor of superior quality guaranteed to give you decades of pure enjoyment. Proudly bearing an FSC certification, you can also be happy that you have chosen a sound, eco-friendly option. And being compatible with underfloor heating, you can add the last finishing touch of luxury. Warm to walk on. Beautiful to look at. Environmentally kind. You could say this is a floor that makes you feel good inside and out.

Stunning good looks are a given with one of our floors. The noble character of the timber's graining grown slowly over decades. The choice of beautiful tones that will more than satisfy contemporary and classic tastes. And the beautiful wide boards that enhance the feeling of luxury and spaciousness.

Tuscan engineered comes with first class environmental credentials. It carries the FSC certification, the internationally recognised standard that guarantees the timber is harvested from responsibly-managed forests. So whichever specie you go for, you can be satisfied that your floor will not just look beautiful, but also be eco-friendly.

Wood is always a joy to walk on. Even more so with bare feet. Our flooring is compatible with almost all types of underfloor heating systems giving you a lovely ambient warmth. As well as cosy toes. Turn it on and turn up the comfort.

Be beautiful throughout your home. Upstairs. Downstairs. From bedrooms to busy hallways and living rooms to kitchens, our product can be used in every domestic setting, except the bathroom or areas of high humidity. It's also flexible enough to be laid onto a joisted subfloor with a chipboard or plywood layer, or a concrete floor with an appropriate underlay.

The superior 3-ply construction of Tuscan engineered guarantees outstanding performance. The expertly manufactured and bonded layers give exceptional dimensional stability. Add to that the precision fit of the Valingé click system and you have an easy to install, easy living floor. You can be confident this floor is built to last and will give years of pleasure. We are. That's why it comes with a 25 year domestic wear warranty.

Tuscan accessories

Installation products

Combistar

Combistar is a colour-matched 3-in –one profile that allows for expansion gaps and a smooth transition between different floorcoverings within your home.

Veneered wrap scotia

Veneered wrap scotia conceals the expansion gap between the edge of the floor and the skirting board. Available in all Tuscan design finishes.

Care & maintenance products

Carver maintenance products

Soap and oil products for the maintenance of your Tuscan brushed and oiled floor. Please refer to separate maintenance leaflet.

Tuscan no wax cleaner

Designed for regular maintenance of all Tuscan lacquered floors, including hand distressed.

General information

Care & maintenance

Vacuum, sweep or dust mop your floor once a week, or more if needed. The vacuum head must be brush or felt, and a wand attachment is preferable. Do not use vacuums with beater bars or hard heads.

Spills and tracked-in dirt should be wiped up immediately.

Periodically clean your floor with the appropriate products. For a lacquered floor, use a No-Wax Floor cleaner. For a brushed & oiled floor, use the Carver maintenance products. Please refer to separate maintenance leaflet.

Use interior and exterior doormats at all entrances to collect dirt and moisture and prevent it from being tracked onto the floor.

Never use any of the following products (or products similar in nature) on your floor: ammonia-based cleaners, acrylic finishes, wax-based products, detergents, bleach, polishes, abrasive cleaning soaps, or acidic materials such as vinegar.

We recommend that brushed & oiled flooring is re-oiled immediately after installation. Please contact your installer or retailer for further information.

All Tuscan floors are manufactured from natural products and can be damaged by high heels, pets and inadequate maintenance. Keep animal nails trimmed to minimise scratches to the surface.

Use furniture leg protector pads under all furniture and make certain to keep them clean and well maintained.

Keep the relative humidity in your home between 35% and 55%. If water is spilled onto the floor, wipe up immediately as water may permanently damage the floor.

Direct sunlight can alter the appearance of your floor.

Always refer to the Tuscan recommended maintenance procedures which can be downloaded from www.tuscanflooring.co.uk.

Installation

Installation instructions are included with every pack of Tuscan engineered flooring. Please refer to them for full guidance on installation.

Installation with underfloor heating

Tuscan engineered flooring is compatible with most types of underfloor heating but we recommend that you refer to the individual manufacturer instructions prior to installation to ensure the correct procedures are observed.

Warranty

Tuscan engineered flooring comes with a limited 25 year residential wear warranty against manufacturing defect.

Please note that Tuscan Engineered Flooring is not suitable for use in the bathroom, conservatory, areas of high humidity or commercial applications.

To maintain the validity of your warranty, your Tuscan flooring must be installed, cleaned and cared for in accordance with the published care and maintenance

advice. Please note that any longer term renovation of your floor, involving sanding and sealing will render the original warranty invalid.

Environment

Tuscan engineered flooring is FSC certified, guaranteeing that it is harvested from responsibly managed forests. By buying a product with an FSC certification, you are supporting responsible forest management worldwide. For each pack of Tuscan engineered that is sold, a tree is planted.

We endeavour to work in partnership with our suppliers and customers to facilitate the provision of clear information about the sources of our wood products wherever practicable. We seek to obtain clear evidence of good forest management practice at the original source. Whilst our intention is to give preference to those suppliers who can provide such evidence, we also accept the need to work with those who are less able but are genuinely seeking to attain high standards of forest management.
